## We Only Make One Promise: To Develop Yours.

Really, there's only one thing that matters in nursing—or any profession. Excellence. That's why we concentrate so hard on high standards. Because it's better for us. Because it's better for you.

At Columbia, the patient comes first. And everyone who works here reflects that.

We offer excellent salaries and good benefits. And we offer you the most important thing of all: a chance to develop your promise. We promise.

Call us.

**sions...decisions...decisions...de**

Beginning a nursing career or seeking other job opportunities is an important decision, requiring a lot of thought. Consider this.

Greater Southeast Community Hospital is a dynamic, 10-year old, 420 bed general hospital with a bright and friendly atmosphere and really innovative concepts in patient care.

Here you will find genuine enthusiasm, close cooperation between physician and nursing staffs, and a good feeling that you will be able to offer all you have to give.

There's more of course . . . like top salaries: ongoing in-service programs to keep you in touch with the latest medical techniques and methods; substantial tuition assistance toward undergraduate and graduate studies at local universities, and a comprehensive benefits package that includes free family health insurance, free life insurance, paid retirement plan, two weeks vacation the first year, leave, holidays, and . . . the list goes on and on.

If you've decided to make the most of your education, experience, and commitment to professional nursing, Call Collect or Write to:

# Give us a piece of your mind.

Our best patient care ideas come from the people who carry them out. Our nurses.

When we say you'll be involved here, we mean TOTAL INVOLVEMENT... in primary care; on committees for nursing care criteria, policies, staffing; on teaching teams; in clinical conferences; in continuing education programs; and more.

MHM is the perfect place for the nurse interested in direct patient care. She enjoys a unique program of advancement through three levels of clinical nursing competence.

You'll like Morristown. It's a gracious suburb near enough to New York City to enjoy it (without the troubles and pressures) and close to shopping centers, colleges, resorts and the spectacular Jersey Shore.

If you want to give us a piece of your mind, begin by sending the coupon.

# GET YOUR CAREER OFF THE GROUND.

You didn't spend all that time and money just to graduate to drudgery.

We didn't spend hundreds of millions of dollars to build one of the finest medical complexes in the country so we could make robots out of our nurses.

On the contrary. We're the University of Alabama Hospitals. And we're looking for R.N.'s who can think for

themselves. Who can accept responsibility. And accept the challenge of caring for patients with problems that begin with the acute and range to the incurable. You'll join a staff of health care professionals from all over the world. People who've found a comfortable climate and lifestyle. In a city where they can enjoy everything from major league hockey to a superb symphony orchestra. If you're all set to take off from nursing school—or your current job's got you grounded—send in the coupon. You'll hear a lot more from us very soon. What you may even hear is opportunity knocking.
